

Hassan Raza

MANUAL QA / SQA ENGINEER

Nadir Abad, Lahore Cantt • qa.hassanraza@gmail.com • +92 302 0533331 • linkedin.com/in/hassanrazaqa

PROFESSIONAL SUMMARY

Detail-oriented Manual QA with **1+ year of experience** delivering high-quality **web and mobile applications**. Skilled in **API testing** using Swagger, Postman, and Insomnia, and creating comprehensive test cases using **TestRail** to cover all project scenarios. Experienced in identifying and resolving bugs using **Jira** and **Asana** to enhance user experience. A collaborative team player committed to continuous improvement and delivering reliable software solutions.

PROFESSIONAL EXPERIENCE

Junior SQA Engineer - FoliumAI | Wapda Town, Lahore

Feb 2025 – Present

Proactive Manual SQA Engineer testing web and mobile projects, performing API testing, creating documentation, and ensuring high-quality, reliable software.

- Performed API testing using Postman, Swagger, and Insomnia for endpoint verification.
- Developed and executed functional, regression, integration, and API test cases.
- Created detailed project documentation including user flows and test strategy documents.
- Identified, documented, and tracked bugs efficiently using Jira.
- Contributed to multiple projects: Foster Ferret, WZRD Pro, SeedFunds, ShareMundo.

SQA Engineer (Intern → Junior) - Kreatorz.co | Lahore Cantt

Sep 2024 – Jan 2025

Performed manual testing for mobile and web applications, progressing from internship to junior SQA role, while ensuring software quality, identifying bugs, and improving overall user experience.

- Created test cases and executed functional & regression testing.
- Reported and tracked bugs using Jira with actionable insights.
- Collaborated with developers for timely issue resolution.
- Contributed to: Ride-Share App, Ryvato iOS App, Attendance Management System.

PROFESSIONAL PROJECTS

Foster Ferret — Web & Mobile App

Ensured quality of multi-functional features including wellness check-ins, AI chat, Shopify integration, file storage, one-to-one chat, and multi-role dashboards.

- Analyzed client requirements and created comprehensive test documentation.
- Performed functional, regression, and UI/UX testing across browsers.
- Conducted API testing using Postman and tracked bugs via Jira.

SeedFunds — Web & Mobile App

Delivered high-quality testing for SeedFunds platform featuring fund allocation, vendor management, Stripe payments, AI chat, Google Maps, and order tracking.

- Designed and executed test cases for functional, regression, and integration testing.
- Validated UI/UX consistency, timeline views, analytics, and multi-platform performance.
- Performed API testing using Insomnia and managed bug reporting via Jira.

WZRD Pro — Web App

Ensured quality of WZRD Pro platform featuring admin dashboards, subscription management, user permissions, crypto learning modules, portfolio creation, risk calculation, and rewards system.

- Designed and executed test cases for functional, regression, and integration testing.

- Validated UI/UX, dashboards, and subscription workflows.
- Performed API testing using Insomnia; verified security, permissions, and data integrity.

TECHNICAL SKILLS

Manual Testing: Functional, Regression, Integration, System, Exploratory Testing

QA Documentation: Test strategies, user flows, reports, and project docs

API Testing: Postman, Swagger, Insomnia

Cross-Platform Testing: Web, mobile, browser & device compatibility

Bug Tracking: Jira, Asana

UI/UX Verification: Responsive, intuitive, and consistent design validation

Requirement Analysis: Understanding requirements & creating scenarios

Root Cause Analysis: Investigating, prioritizing, and resolving complex bugs

Test Case Management: TestRail - creating, and executing test cases

Release Validation: Pre-release checks to ensure stability and quality

SOFT SKILLS

- Presentation & Communication
- Problem Solving & Critical Thinking
- Attention to Detail
- Team Collaboration
- Continuous Learning
- Time Management
- Process Improvement

EDUCATION

Bachelor of Computer Science

Oct 2020 – July 2024

Lahore Garrison University | DHA, Lahore

Relevant Courses: Operating Systems, OOP, Data Structures & Algorithms, Networking, Database Management, Network Security, Software Engineering Concepts, and System Design Fundamentals.
